

*"Where Performance Comes Down To The Wire"*

April 20, 2012

To Whom It May Concern,

This is a letter of reference for Michael Boyd and Integrity Electric. He recently completed some work in our plant and it was completed on time and efficiently. He is well trained in all areas of lighting, electrical and energy efficiency. He submitted a proposal along with other companies we had bid the project and he was very competitively priced. He offered free evaluations of our needs, submitted a drawing and full explanation of the quote and offered to complete the paperwork regarding rebates to KCP&L. He coordinated his work around our plant hours, secured all the materials needed to complete the project and was efficient in the installation.

I would use his services again and recommend him to address all your various lighting, electrical and efficiency needs.

Regards,

Scot Goddard
